## EXPERIENCE

---

### TCS | PL/Sql Developer

7th October, 2021 - 26th April, 2023

- Oversee and maintain Production database and provided **L3 Support**.
- Write well-designed and efficient procedures by using the best software development practices.
- Solved the complex defects by providing **Root fix, Impact Area** and **Data Correction**.
- Did **Data Correction** for over **200,000+** production data.
- Financial Report Creation mainly IFRS, and Production level reports.
- Meeting with finance team and the **CFO** to clarify the data mismatches.
- **Debugging, Developing, Root Cause Analysis** done for over **100+** defects.

## PROJECTS

---

- **TCS BaNCS (Client: Arabian Shield Cooperative Insurance Company, Tech: PL/Sql, Java)**
  - Developed the key procedure that updates the policies during the batch run for the given set of policies in the stand alone table by disabling the trigger, updating and re-enabling it and also generating the logs. This **reduced** the **manual work** time by **8%**.
  - Implemented the procedure to handle the impacted policies amount transfer file(ORDE) which was earlier done manually. The manual work dropped by **20%**.
  - Root Cause Analysis done for over **100+** defects along with impact area, data correction and creation of amount transfer file.
- **OnSpot News App(Tech: HTML, CSS, BootStrap, React.js)**  
**GitHub :** <https://github.com/Donnie3004/OnSpot-News-App>
  - Developed a modern web application designed to provide users with the latest news from top global news providers, all in one place.
  - By leveraging **NEWSAPI**, OnSpot aggregates news from trusted sources, ensuring that users stay informed with real-time updates
  - Built using **React**, OnSpot delivers a fast, seamless, and intuitive experience.
  - Key functionalities: **BrowserRouter, API, Functional Components**.
- **Text-Pulator (Tech: HTML, CSS, BootStrap, React.js)**  
**GitHub :** <https://github.com/Donnie3004/Text-Pulator>
  - Text-Pulator is a lightweight and user-friendly web application that allows users to modify text in various ways with just a few clicks.
  - Built using **React, Bootstrap**, and **HTML** it ensures a smooth and responsive user experience across all devices.
  - Key functionalities: **BrowserRouter, Functional Components**.

## EDUCATION

---

- **2024 - present | Coding Ninja Web Development Bootcamp**
- **2017 - 2021 | Shri Shankaracharya Institute of Professional Management and Technology**  
Bachelor of Technology (Honours) - Computer Science Engineering

## LEADERSHIP EXPERIENCE

---

- Elected as **President, VP Membership, Secretary** (SSIPMT Spellbinders Toastmaster Club)
